To Whom It May Concern:

This past school year I purchased new uniforms for our varsity girls basketball team at Cedar View Christian School. I was back and forth on where I wanted to order them from because I didn't want uniforms that looked like everyone else's uniforms. I wanted something that would not only be comfortable but that would be eye catching and different. After much research, I found Anita at Doe Valley Printing. Anita has a great program set up where you can go online and actually design your own uniforms. I was able to use the design program to manipulate everything from inseam length, shoulder width, fabric, colors, and lettering. I was also able to see the uniform in a 360 degree fashion to see how the uniform would look from every angle. I designed the uniforms, ordered them, and had them in 2 short weeks. Now that is pretty great service. I have ordered several sets of uniforms through the years and can honestly say that I've never had any arrive exactly two weeks after ordering them. Another great thing was that I could order however many sets I needed. In fact, I can call Anita and get an additional set made at the same price that I had 12 made. I also liked that the lettering and numbers were not screen printed but were actually made as part of the jersey. This means that my letters aren't going to mess up after twenty washes.

We absolutely loved our uniforms. They looked great and we couldn't have been more pleased. I would highly recommend using Anita as your official uniform lady. She takes great pride in her products and I guarantee you will be pleased with the end result.

Sincerely,

Sarah Anne Walker

Varsity Girls Basketball Coach
